The Australian Champion.

Ernie Cavill, the champion professional swimmer of Australia, intends displaying his skill in Chicago during the currency of the mammoth exhibition to be held there next year. He has been made a very good offer to undertake the trip and intends to avail himself of it. Cavill has been getting into form at the Manly baths, which he conducts, and is confident he can, to use an Americanism, "lick creation." Kenny, his Melbourne rival, has, by-the-way, been hitting the Yankees pretty hard with his natorial performances. We may also state that Cavill has a younger brother who is coming on at a great rate, and is said to be able to hold his own with the champion for a short distance.—*Australian Star.*

Discovery of America.

Oahu College and its dependency, Punahou Preparatory School, recognized this, the four hundredth anniversary of the discovery of America by Christopher Columbus. These schools had literary exercises appropriate to the day, and gave the students and pupils a half holiday to celebrate in their own way.

A little boy of Mrs. McDonald's, living near here, fell against a red hot stove and was fearfully burned. The pain was terrible, and it was thought the burn was so severe as to scar the child for life. I sold the lady a bottle of Chamberlain's Pain Balm, which, after greasing the sore, she applied. It soon removed all the fire and eased the pain, and in ten days the boy was well, no trace of the scar remaining. J. D. McLaren, Keyport, Clinton county, Ill. For sale by all dealers. LOCAL AND GENERAL NEWS.

1492—October 21—1892.

America's 400th birthday.

Hurrah for Christopher Columbus.

This is ladies' night at the skating rink.

Several yards on King street were flooded last night.

Diamond Head, 3 p. m.—Weather clear; wind, light northeast.

Hon. H. P. Baldwin was booked to leave by the steamer Kinan this afternoon.

H. Boyd and Miss Hannah Kamaiopili were married last evening at St. Andrew's Cathedral.

A Portuguese was arrested for assault and battery on a child. This morning he was discharged.

A. B. Parker and wife and Miss Johns are booked to leave on the S. S. Alameda for the Colonies.

Messrs. A. Armitage and C. C. Gardner, tourists, were passengers by the Kinan to-day for the Volcano.

The mumps are prevalent among school children, now, and not a few fat-faced children can be seen daily on the street.

The 80 ft. flagpole of the Portuguese Benevolent Society's clubhouse, Alapai street, was erected to-day. It is a beauty of a stick.

Mrs. Bruguere, daughter of Mr. S. B. Rose, is expected on a visit to her parents by the Alameda. Captain Bruguere is now living in San Francisco.

Preparations for the Sons of St. George picnic at Remond Grove on the 5th of next month are progressing favorably. A good time is anticipated.

J. F. Morgan will sell at auction to-morrow at noon the wooden buildings known as the King's stables, at Printer's lane and Punch-bowl street.

A large number of people were at the wharf this afternoon to bid adieu to Mr. Parish and his bride, who left on the Kinan for their future home on Maui.

The S. S. Alameda was to leave San Francisco on Oct. 14 for Honolulu and the Colonies, but may have been detained by the mails. She has not been signaled as we go to press.

Enough special correspondence was sent by the Mariposa yesterday to fill the San Francisco and Eastern dailies. The effect will be awaited with interest, as the budgets contained "hot stuff."

Hau, charged with manslaughter on Kaneakua in Palolo, waived examination in the Police Court and was committed for trial to the Supreme Court. J. L. Kaulokou will appear for the defense.

Mrs. James Lyle, who returned by the S. C. Allen from a visit of over two months to her daughter, Mrs. E. Atwater, at San Francisco, has our thanks for the latest date of the San Francisco Chronicle.

The "Woofing of Kaala" will be presented on the boards of the Opera House to-morrow evening. The costumes and scenery are of an elaborate description, and since the rehearsals have all been successful a good entertainment is on the tapis.

F. J. E. Walker, photographer, left on the Kinan this afternoon to eventually bring up at the Volcano. Mr. Walker will take views of all points of interest on Hawaii, being in the service of the Bureau of Information, for advertising the country in Japan.

The departure of the S. S. Mariposa was witnessed by a large crowd yesterday afternoon. The band was present and the usual array of wreath-bedecked passengers was prominent on deck. Previous to her departure the band played a march composed by Ovide Musin during a previous visit.

COMPLICATED CONTEST.

The Fight Between the Minister of Finance and the Assessor.

Mr. C. A. Brown, removed from the position of tax assessor-in-chief by the Minister of Finance, up till this morning persisted in refusing to give up the keys of the safe containing the records of his office.

Yesterday evening Minister Macfarlane sent a written notice to the ex-assessor to be at the tax office at 9 o'clock this morning, when, if he still refused to surrender the keys, the safe would be drilled open.

At the appointed hour Mr. Brown was there with his counsel, Mr. F. M. Hatch. By order of the Minister a frame was in position over the safe for the drilling apparatus. After a protracted parley Mr. Brown opened the safe and delivered up the records, but declined to hand over the keys, as the safe was his private property.

The authorities are reticent as to certain matters reported to be pending between the Minister and the removed official. It is rumored on the street that there is a dispute as to the amount of cash that should be on hand in the tax office. Mr. Brown, it is said, admits that some of the cash is held down town for safe-keeping.

Another rumored subject of controversy is as to the payment of the assessor's own taxes for last year, amounting to a round thousand dollars.

The Minister is also reported to be investigating the matter, referred to in Attorney-General Neumann's speech the other night, of a bribe in the shape of a piece of land, alleged to have been offered to a member of the Legislature for voting against the Ministry.

If one's hands perspire easily when doing delicate work, they should be bathed in a few drops of eau-de-Cologne from time to time.

FOREIGN NEWS.

Items by the Bark S. U. Allen from San Francisco, October 6.

THE HALCYON IN CAPTIVITY.

The schooner Halcyon is lying at Esquimalt, British Columbia, with a customs officer on board. Collector Milne has not decided what action to take in her case. (This is all that is said about the vessel in the latest paper.)

YOUNG STRONG.

D. W. Strong, who has charge of the Oakland Free Library, met with a pleasant surprise the other day when he found that his young nephew, the son of Joe Strong, the artist, who is with Robert Louis Stevenson at his Samoan home, arrived on the steamer Alameda. The lad had made his way alone from Samoa, and was bound for Oakland, whither he comes to attend the public schools. He will be under the care of his uncle.

TO TEST THE EXCLUSION LAW.

In the case of Lew Fong, the Chinese arrested for being illegally within the United States, and who was taken with eight men more at Monterey, a petition for writ of habeas corpus was allowed on the 5th at San Francisco by Judge McKenna. The Governor took one week to make a complete return to the writ, and the case has gone over to be set when Judge McKenna can hear it. The petition alleges that the Geary bill, under which the proceeding is taken, is unconstitutional for shifting the burden of proof to the accused. The case is intended to test the new law on this question, but will have nothing to do with the registration.

TO SUCCEED GILMORE.

D. W. Reeves, now playing at the Portland (Oregon) Industrial Exposition, has received a telegram from St. Louis offering him the leadership of Gilmore's band, to succeed the late founder of the famous corps.

RAILROADED TO JAIL.

The claim of the thirteen sailors of the Bankburn, who were imprisoned at Victoria for six weeks and fined for mutiny, that they had been railroaded to jail appears to be true. The discovery of an irregularity in their cases will probably lead to their release. Interest violation of the law Captain Davies of the Bankburn neither entered nor cleared his vessel at Victoria.

THE MOHICAN FIRES AT A SEALING VESSEL.

The sealing schooner Willard Ainsworth, Captain E. Cantillon, returned to Seattle, Wash., Oct. 5, from her maiden sealing cruise, which netted 880 skins. Ainsworth had an exciting brush with the United States steamship Mohican on May 25th. Last year the terms of the modus vivendi were that any schooner leaving port before the agreement had been made and not being warned could not be seized for taking seals in Behring sea. Nearly all the schooners this year left port before the new modus vivendi had been signed and did not know that it provided for seizures in the sea whether or not warning had been given. Consequently every schooner that sighted a man-of-war tried to get away to avoid the warning.

On the day mentioned, when somewhere to the south-west of Middleton island, the Ainsworth sighted the Mohican and clapped on all sail to escape. The Mohican gave chase with steam and sail and overtook her. As she was almost alongside the Ainsworth put about and got away on a tack.

It was some minutes before the Mohican could get around, but when she did she bore down on the schooner very fast. Again the Ainsworth went about and got away. The commander of the man-of-war then evidently lost his temper, for the crew was piped to quarters and a gun run out forward.

This time when she came within hailing distance she commenced blazing away. Five shots were fired and then Captain Cantillon concluded to stop. No damage was done the ship as the balls whistled through the rigging. Some of the crew narrowly escaped being hit.

Ensign Harrison came aboard and served official warning to keep out of the sea. Mr. Harrison is a nephew of President Harrison.

Captain Cantillon heard nothing during the voyage of the schooner Maggie Mac of Victoria, reported missing. He fears she is lost.

CATTLE LOSS IN ARIZONA.

The weather has turned much cooler during the last few days in Arizona and abundant rains in the mountains insure a good winter for cattle, which have suffered much for the past six months. The loss is said to have been 30 per cent.

TWO CRUISERS.

Orders have been received at San Diego instructing the commanders of the cruisers Charleston and Baltimore to sail Friday morning for Redondo, and the four days' drill which had been planned with the local company of Naval Reserves must be deferred. The officers are greatly disappointed, as they had expected to remain at San Diego several weeks. Whether they will return or rendezvous at Redondo is not known.

REMARKABLE COMMUNION SERVICE.

The triennial general convention of Bishop of the American Episcopalate assembled at Baltimore Oct. 5. Impressive communion services were held, celebrated by Bishop Whipple of Minnesota. The sermon was delivered by Bishop Wilmer. The gathering at the chancel rail for communion was a remarkable one, a prominent figure among the laymen being Melville W. Fuller, Chief Justice of the United States Supreme Court, who knelt side by side with a colored clergyman at the communion rail. The House of deputies was organized in the afternoon by the unanimous election of Rev. Morgan Dix of New York as president.

DISSATISFIED INDIANS.

Chief Saltes of the Cœur d'Alene Indians held a conference at Spokane, Wash., with the Spokane Indians under Chiefs Enoch, John Stevens and Thomas Gary, relative to the removal of the latter tribe to their portion of the Cœur d'Alene reservation.

In spite of the peace assurances of Saltes the Spokanes were obdurate and demanded money instead of the lands allotted to them, and the conference was unsatisfactory.

According to the terms of the appropriation each Indian over 5 years of age receives eighty acres of land. The money appropriation is to be used by Agent Hardman to erect grist mills, buildings, purchase cattle, etc. Transportation is to be furnished to the tribe to the reservation.

SLUGGER CORBETT.

Corbett wants nothing to do with Goddard. His only game is Mitchell.

TERRIBLE TIME IN CHILE.

Chilean advices say vandalism, influenza, highway robbery, railway disasters, have now suicide as a powerful ally in their work of destruction in Chile. Scarcely a day passes that cases of self-murder are not reported either at the capital or Valparaiso, while reports are constantly reaching the city from the interior of similar occurrences.

GUANOAT LOST.

The Portuguese gunboat Guadiana has foundered off Cascaes, fifteen miles west of Lisbon on the Atlantic. All on board were saved.

THE SAMOAN NAVAL STATION ASSURED.

At last the United States is in a position to establish the long-desired coaling station at Samoa. During the ugly complications there growing out of the claim of Germany to supremacy on the islands and after the destruction of the United States fleet by a hurricane the old concession to the United States of the harbor of Pago Pago was revived, and Congress appropriated \$100,000 for the establishment of a coaling station.

It was necessary to acquire twenty-five acres needed for the station, but it was found there were numerous claimants, and to save controversy and time the Government was obliged to buy all adverse claims, paying \$5000 for them. The remainder of the appropriation is to be applied to the purchase of lands adjoining the station proper for a garrison that may eventually be quartered at the station. The remaining funds will be applied to the construction of a landing wharf, the plans of which have recently been completed. Work will commence as soon as all claims are quieted.

DIED FROM HYDROPHOBIA.

William Lincoln, the former paying teller of one of the largest national banks in New York City, died on the 4th inst. from hydrophobia at his handsome residence in Morrisania. The doctors agree that it was a genuine case of rabies.

TO REFINE SUGAR.

A stock company organized to engage in the refining of sugar has just been incorporated at Yonkers, N. Y. It is known as the National Sugar Refining Company of Yonkers, and is composed of D. H. Howell, Nathaniel Tooker and Albert Banker. The capital stock is \$750,000. The company bought the plant used for sugar boiling for the past forty years by Jacob Read, and expects soon to turn out 1000 barrels of sugar a day.

WORK OF THE MAFIA.

In an investigation into the death of Eligero Martino, an Italian, killed in a Chicago saloon, the police have found evidence that it was the work of the Mafia. Seven Italians who were present at the time of the murder have been arrested.

INVOLVES EIGHT MILLIONS.

In the suit of Congressman James Belden against Judge Stevenson Burke and others, and the Columbus, Toledo and Hocking Valley Railroad, involving \$8,000,000, Justice Ingraham at New York gave judgment for the defendants.

GLOOM AT THE WHITE HOUSE.

The truth is at last faced that there is no power on earth can save the life of Mrs. Harrison, wife of the President of the United States.

The mental and physical strain upon the President during the last two months has been very great and has left its mark upon him. At the Cabinet meeting on October 4 Mr. Harrison for the first time gave outward evidence of the great affliction which is hanging over him. His advisers saw it and considerably withdrew, seeing that he was too deeply moved to discuss affairs of state under such trying circumstances.

The strain upon the President has been almost more than he could bear. His anxiety for the fate of his wife has been rendered doubly acute by the demands made upon him by the exigencies of the Presidential campaign, as well as by important affairs of state that have called for consideration and adjustment.

CONDITION OF TURKEY.

Minister Hirsch has arrived in the United States from his post in Constantinople. He said that there was an underlying current of discontent among the classes in Turkey, but that there was no danger of war or rebellion. He knew nothing, he said, about the stories that the Sultan is practically bankrupt.

ON THE TURF.

In the yearling race at Vancouver, Wash., Oct. 15, Ella T., a filly by Altamont out of a Coast Range mare, took the first heat in 2:34 and the second in 2:37. This is said to be the fastest heat and also the fastest two heats ever trotted in a race by a yearling.

The four days' trotting meeting was begun at Hickory Grove track, Racine, Wis., Oct. 5. Jay-Eye-See was to be sent to beat his record on Friday. The gelding is in fine trim, and will be sent to Columbia, Tenn., and entered in the \$5000 stake race against Flying Jib and others.

At the horse sale at Lexington, Ky., the Electioneer stallion Clay was sold to M. Le Compte of Paris for \$15,000.

FRICTION IN PRUSSIA.

There is friction in the Prussian Cabinet. Its president, Count Eulenberg, has taken affront at Count Caprivi's moving of the military bill, although he is no longer Premier. Emperor William is striving to check the current of discontent.

VENEZUELA REBELS SUCCEEDING.

The rebel General Crespo is just outside the gates of Caracas, Venezuela. The Government troops have been signally defeated. President Pulido is virtually deprived of his army.

Supreme Court.

The jury in the case of Freitas vs. Dias yesterday afternoon rendered a verdict for the plaintiff.

Judge Dole is presiding at term to-day.

A foreign jury is trying the case of C. L. Carter, assignee and attorney in fact of Jno. Brodie, vs. Oahu Railway & Land Company—a claim for \$2000, balance on account. Thurston & Frear for plaintiff; Hatch for defendant.

KAHULUI FIRE CASE.

On the 27th of October, 1891, a foreign jury rendered a verdict for \$1504.41, in favor of Theo. H. Davies & Co., plaintiff, vs. Wilder's Steamship Company, defendant, being amount of claim for goods destroyed in the burning of the Kahului warehouse. A motion for a new trial made by the defendant company has been pending ever since. To-day Justices Bleckerton and Dole gave an oral decision in Banco, denying the motion. Chief Justice Judd being disqualified from personal interest did not join in the consideration of the motion. Hartwell for plaintiff; Hatch for defendant.

Another Benedick.

The latest event, in the many victories which have of late been credited to the record of the god Cupid, is that of the quiet marriage this afternoon of Mr. Leonard Parish with Miss Mary Dowsett, second eldest daughter of Hon. James I. Dowsett of this city. The ceremony took place at 11 o'clock, at St. Andrew's Cathedral, and was solemnized by Rev. A. Mackintosh. After the ceremony the bride and groom, with the wedding party, which included only relatives and the immediate friends of the happy couple, enjoyed an elaborate wedding breakfast at the residence of the bride's father at Palama.

Mr. and Mrs. Parish left this afternoon at 2 o'clock in the steamer Kinan for Ulupalakua, Maui, where Mr. Parish will assume the management of the Ulupalakua Plantation. A large gathering of friends and acquaintances saw the happy couple en route to their destination.
